

JOB SHADOWING PARTNERSHIP

Erasmus+ for schools - Staff Mobility

Dear schools of Europe,

The primary and nursery school Lyčkovo náměstí (ZŠ a MŠ Lyčkovo náměstí) is seeking primary schools that would be interested in hosting teachers for job shadowing, an Erasmus+ mobility project that provides opportunities to teachers, school leaders and other school staff to spend a period abroad in a partner school active in the field of school education, with the aim of transferring their knowledge and experiences with other teachers from the same field. Specially, we would like to establish collaboration with primary schools with experience in the field of education and school inclusion.

Primary and nursery school Lyčkovo náměstí is located in Prague, the Czech Republic, and it has been implementing an inclusive education program for more than 10 years. This program has the aim to actively integrate students with special education needs, especially with learning disorders such as ADHD, dyslexia, dysphasia, dysgraphia, hearing defect, autism and asperger syndrome. School counts with specialized teachers that help and support these students in their daily learnings, preparing for them special materials and activities when it is needed and, also, some of these students have individualized lessons to better attend their needs.

The reason why we are interested in job shadowing is because we would like to offer to special education teachers the opportunity to go abroad to learn from other educational contexts, share teaching experiences, acquire new competences and improve their skills as special educational needs' teachers.

Would you be interested in sharing ideas with other teachers? Would you like to have the opportunity to exchange teaching experiences? Would you like to host teachers and be involved in an European project? If you are a primary school with similar characteristics and you would like to host our teachers to show them your good practices, at the same time as you participate in an European project, don't hesitate to contact us. We will be glad to establish collaboration with you!
